Prevention mechanisms

- To treat conflict of interests is to avoid them to arise or to resolve them if they concur
- Revolving door treated effectively
- Plural decision making process with disclosure of the identity of the decision makers
- Extension of declaration of interests to occasional collaborators of the public service in areas of risk
- Coordination of the external control bodies
- Follow up protocols (anti-money laundering law 2010)
- Risk analysis from the administration concerned and effective management of those risks
- Verification of asset declarations
